

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Revenue

1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

The COFTE Projected Total (42,710) for 2028 - 2029 must match the Official Forecasted COFTE Total (42,710) for 2028 - 2029 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

New water/power/sewer lines are in construction to bring utilities to the new schools. Also, new turning lanes will be constructed.

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

2 new elementary schools, 1 new high school, and 1 new middle school are in construction on school board owned property. Marion County is in review of the plans to ensure consistency with the comprehensive plan

Consistent with Comp Plan? Yes

Net New Classrooms

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

List the net new classrooms added in the 2023 - 2024 fiscal year.					List the net new classrooms to be added in the 2024 - 2025 fiscal year.			
"Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment.					Totals for fiscal year 2024 - 2025 should match totals in Section 15A.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The available space within the District, in conjunction with planned capital outlay projects and projected capital outlay FTE, do not indicate the need for alternative scheduling or organization during this work period. The District currently employs block scheduling at some high schools and will attempt to re-district several schools at all levels in order to reduce a need for additional permanent student stations. However, localized overcrowding especially at the southwest corridor of the county is expected and is already being experienced necessitating the construction for additional schools and/or classroom additions, which are funded with COPS funds. With regard to portables, the District is planning to dispose of portables not meeting classroom standards and therefore will not have a need to erect additional permanent covered walkways to the District's various portables. The District is also currently leasing 18 portables to handle localized overcrowding until new schools can be built.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

At this time, there are no plans to close any schools although the School Board will continue discussions on the subject.

No existing property pertaining to a school with capacity is currently approved to be disposed of.
